This notice describes how medical information about you may be used and disclosed, and how you can gain access to this information. Please review it carefully.

Protected health information (PHI), about you, is maintained as a written and/or electronic record of your contacts or visits for healthcare services with our practice. Specifically, PHI is information about you, including demographic information (i.e., name, address, phone, etc.), that may identify you and relates to your past, present or future physical or mental health condition and related healthcare services.

Our practice is legally required to maintain the confidentiality of your PHI, and to follow specific rules when using or disclosing this information. This Notice describes your rights to access and control your PHI. It also describes how we follow applicable rules when using or disclosing your PHI to provide your treatment, obtain payment for services you receive, manage our healthcare operations and for other purposes that are permitted or required by law.

Your Rights Under The Privacy Rule

Following is a statement of your rights, under the Privacy Rule, in reference to your PHI. Please feel free to discuss any questions with our staff.

You have the right to receive, and we are required to provide you with, a copy of this Notice of Privacy Practices - We are required by law to follow the terms of this Notice. We reserve the right to change the terms of the Notice, and to make the new Notice provisions effective for all PHI that we maintain. We will provide you with a copy of our current Notice if you call our office and request that a copy be sent to you in the mail, or ask for one at the time of your next appointment. The Notice will also be posted in a conspicuous location in the practice, and if such is maintained, on the practice's web site.

You have the right to authorize other use and disclosure - This means we will only use or disclose your PHI as described in this notice, unless you authorize other use or disclosure in writing. For example, we would need your written authorization to use or disclose your PHI for marketing purposes, for most uses or disclosures of psychotherapy notes, or if we intended to sell your PHI. You may revoke an authorization, at any time, in writing, except to the extent that your healthcare provider, or our practice has taken an action in reliance on the use or disclosure indicated in the authorization.

You have the right to request an alternative means of confidential communication – This means you have the right to ask us to contact you about medical matters using an alternative method (i.e., email, fax, telephone), and/or to a destination (i.e., cell phone number, alternative address, etc.) designated by you. We will follow all reasonable requests.

You have the right to inspect and obtain a copy your PHI* - This means you may submit a written request to inspect or obtain a copy of your complete health record, or to direct us to disclose your PHI to a third party. If your health record is maintained electronically, you will also have the right to request a copy in electronic format. We have the right to charge a reasonable, cost-based fee for paper or electronic copies as established by federal guidelines. We are required to provide you with access to your records within 30 days of your written request unless an extension is necessary. In such cases, we will notify you of the reason for the delay, and the expected date when the request will be fulfilled.

You have the right to request a restriction of your PHI* - This means you may ask us, in writing, not to use or disclose any part of your protected health information for the purposes of treatment, payment or healthcare operations. If we agree to the requested restriction, we will abide by it, except in emergency circumstances when the information is needed for your treatment. In certain cases, we may deny your request for a restriction. You will have the right to request, in writing, that we restrict communication to your health plan regarding a specific treatment or service that you, or someone on your behalf, has paid for in full, out-of-pocket. We are not permitted to deny this specific type of requested restriction.

For example, we would disclose your PHI, as necessary, to a pharmacy that would fill your prescriptions. We will also disclose PHI to other Healthcare Providers who may be involved in your care and treatment.

Payment - Your PHI will be used, as needed, to obtain payment for your healthcare services. This may include certain activities that your health insurance plan may undertake before it approves or pays for the healthcare services we recommend for you such as, making a determination of eligibility or coverage for insurance benefits.

If you are not present or able to agree or object to the use or disclosure of PHI (e.g., in a disaster relief situation), then your healthcare provider may, using professional judgment, determine whether the disclosure is in your best interest. In this case, only the PHI that is necessary will be disclosed.

Other Permitted and Required Uses and Disclosures - We are also permitted to use or disclose your PHI without your written authorization, or providing you an opportunity to object, for the following purposes: if required by state or federal law; for public health activities and safety issues (e.g. a product recall); for health oversight activities; in cases of abuse, neglect, or domestic violence; to avert a serious threat to health or safety; for research purposes; in response to a court or administrative order, and subpoenas that meet certain requirements; to a coroner, medical examiner or funeral director; to respond to organ and tissue donation requests; to address worker's compensation, law enforcement and certain other government requests, and for specialized government functions (e.g., military, national security, etc); with respect to a group health plan, to disclose information to the health plan sponsor for plan administration; and if requested by the Department of Health and Human Services in order to investigate or determine our compliance with the requirements of the Privacy Rule.
